School Mission

The TCP World Academy is for me to become an academically involved independent learner, through quality class participation in micro-society activities and utilizing technology for higher learning. I will understand the rationale for my education and the importance of this experience for my viable participation in global society.

Karen Y. French

Founder / Superintendent / Principal

T.C.P. World Academy remains at the top of the educational spectrum as one of the state of Ohio's shining stars. Trusting God and teaching our children not only to mount up with wings as eagles and fly, but to go as high as they can soar, has propelled T.C.P. World Academy to be continuously recognized by the Ohio Department of Education with a rating of "Excellence". With our students surpassing the national standard for Reading and Math, we continue to be recognized by the State Superintendent, Ms. Deborah Delisle, as a "School of Promise." This annual report and yearbook is designed to share who we are and our year of accomplishments, compliance, and fun.

"A soaring performance starts with a determined effort." In our persistence to continue to provide the best possible education for your children, all instructional staff members synergized and regularly participated in Professional Development provided by veteran accomplished teachers, and completed projects to improve our educational methods. Additionally, three teachers are completing Master of Education Degrees, one completed her Master of Education Degree, and another is working on her Doctorate. In spite of the inclement weather, school closings, and the spread of the H1N1 swine flu throughout the city, our students and staff aggressively practiced good healthy habits and maintained a 95% attendance rate.

We are happy to report, once again, that we surpassed the state averages in the tested grades 3 through 6 on the Ohio Achievement Test; our kindergarten students did better than the national average of first grade students; our first grade beat the national average of second grade students; and our second grade students surpassed the national average of third grade students. It is my hope that you never tire of us continually challenging your children with higher standards as well as never tire of hearing these accolades.

It is not my plan to ever rest on our laurels; for as long as God enables me, I will continue to work tenaciously to lead the staff and students on the path of excellence to help insure that your children have bright futures.

ATTITUDE

by Charles Swindoll

The longer I live, the more I realize the impact of attitude on life. Attitude, to me, is more important than facts. It is more important than the past, than education, than money, than circumstances, than failures, than successes, than what other people think, say or do. It is more important than appearance, giftedness or skill. It will make or break a company... a church... a home. The remarkable thing is we have a choice every day regarding the attitude we embrace for that day. We cannot change our past... we cannot change the fact that people will act in a certain way. We cannot change the inevitable. The only thing we can do is play the one string we have, and that is our attitude... I am convinced that life is 10% what happens to me and 90% how I react to it.

And so it is with you... we are in charge of our Attitudes
